

POWER-UP CX PARTNER PERFORMANCE.

THE OPPORTUNITY

CX partners around the world are playing a crucial role in helping organisations deliver exceptional customer experiences, drive customer satisfaction, loyalty and business growth.

And as the CX+CCaaS market continues to grow, partners are positioning themselves for long-term success – by launching new products and services, investing in talent and finding ways to demonstrate real, tangible ROI to customers.

CX PARTNER CHALLENGES

But as they try to capitalise on this opportunity, CX partners face six key challenges:

- 1** Customers' expectations are evolving rapidly - driven by advancements in technology and the growing emphasis on personalised experiences.
- 2** Data is at the heart of delivering personalised customer experiences.
- 3** CX partners face challenges related to data collection, management and analysis. They must develop a data-driven approach to gain actionable insights, make informed decisions and drive continuous improvements in customer experiences.

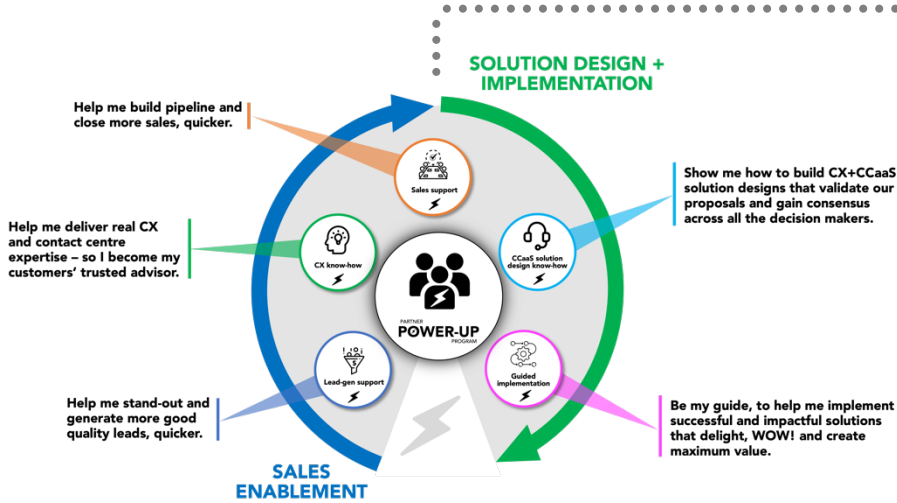

- 3** Successful CX partnerships require a deep understanding of the organisation's business objectives.
- 4** Partners must be able to translate this knowledge into great CX solution designs and future CX state visions.
- 4** The demand for skilled CX professionals often outpaces supply, leading to a talent shortage in the industry.
- 4** CX partners must invest in recruiting, training and retaining talented individuals with expertise in customer-centric strategies, technology + data analytics.

- CX + CCaaS know-how.
- Lead-gen + sales.
- Implementation success.

- 5** Demonstrating the return on investment (ROI) of CX initiatives continues to be a major challenge.
- 5** Establishing meaningful metrics, tracking customer satisfaction, loyalty + financial outcomes, and effectively communicating the impact of CX strategy to stakeholders are all essential for partner success.
- 6** In a crowded marketplace, CX partners must differentiate themselves from competitors.
- 6** CX partners must develop unique value propositions, showcasing their expertise and continually innovating - to stand out as trusted partners.

POWER-UP PROGRAM

The POWER-UP program builds on and augments a partner's own capabilities:

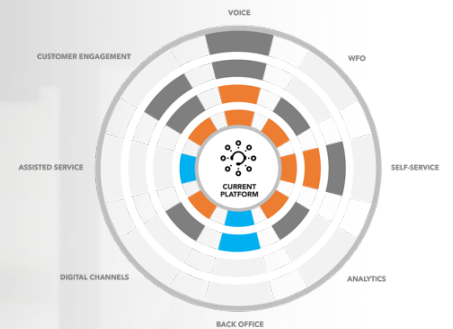

- SALES**
Generate new leads and close more business, quicker.
- DESIGN + IMPLEMENTATION**
Design, build and implement winning CX solutions.

The POWER-UP program accelerates partner success.

The program provides a range of sales, marketing, CX solution design and implementation support to CX partners.

The CX Ninjas work with the partner to leverage any existing partner blueprints, case studies, implementation models and other assets. These are used to create powerful visual storytelling tools – like cloud migration ROI presentations, product packaging and interactive learning content.

CLOUD MIGRATION SALES SUPPORT

As a monthly subscription service, partners choose the amount and type of support they need from the CX Ninjas.

SOLUTION DESIGN BEST PRACTICES

1 You are telling a story with your solution design...

- Think about the audience to set your direction and tone.
- Play to their emotion – not just their intellect.
- People buy from people – will you be their trusted advisor?
- Start strong with a hook to engage: "This new walk into a pub..."
- Keep focus – it's not about you, it's about them.
- Be remembered – make an impact with a strong conclusion.
- Support with as many facts as possible – do your research.
- Make it personalized and anticipated.
- Use visuals to keep interest and avoid cognitive overload – **FACTS, TELLS, STORIES SELL... AND BULLETS KILL!**

Digital + AI TRANSFORMATION

Our independent team of CX experts will help you imagine, design and build the customer experiences of tomorrow - as your trusted advisors.

- ✓ Research and recommend UX improvements to voice and digital customer journeys.
- ✓ Explore new AI-led customer self-service opportunities.
- ✓ Bring to life new product and service concepts and ideas.
- ✓ Work with your team to find ways to increase customer loyalty and satisfaction.
